

For Immediate Release:

Michigan, Trenton-Detroit

Trenton Forging Company Awards David Burke Employee of the Month of January

David Burke, a 57 year old CNC Machinist from Monroe, Michigan was named the Employee of the Month at Trenton Forging Company in January 2010. David has worked for TFC for seven and a half years.

He likes the “pace of work in the die shop and how important the part he plays is in the overall picture of producing a quality product for our customers.” David also enjoys spending time with the people he works with and considers some of his coworkers very good friends. He says, “It may sound funny, but it’s true! I really do enjoy my job!”

David is the proud father of three daughters: Angela, 33, Kristie, 30, and Stacey, 30.

Trenton Forging’s President, David Moxlow, says, “Dave is one of those employees that you look forward to seeing in the morning. He always has a positive attitude towards both work and leisure. He is an individual that not only takes pride in his own work and accomplishments, but takes pride in the Company.”

“Dave’s attitude shows in his workmanship. You never send anything back to him to have it done over or corrected. Dave Burke is a key associate in our die making program and we can attribute many of our successes to him”.

Michigan-based Trenton Forging is a leading producer of custom impression die forgings for a wide variety of industries, including automotive, mining, military, and agriculture. Trenton Forging has the distinction of being one of the first companies of any kind worldwide to be certified QS9000, and the first closed impression die forging company in the world certified QS9000/ISO9002.
