

For Immediate Release:

Michigan, Trenton-Detroit

Trenton Forging Company Awards Rick Hudock Employee of the Month of October

Rick Hudock, a forty-nine year old from Garden City, Michigan, has been the Quality Manager at Trenton Forging Company for twenty years. “The position offers many new challenges that keep me learning and make the job interesting,” says Hudock.

Trenton Forging President, David Moxlow, says, “Rick is one of those employees you just don’t worry about. He has a military background so punctuality and attention to detail are a natural part of his character. He is the ‘go-to’ guy in the plant, and he also does a lot of our IT implementation and ‘fixes’. One word to describe Rick would be ‘dependable’.”

Holly Bialczyk, a relatively new addition to the Trenton Forging team, says that “Rick is very helpful when it comes to learning the software we use at the office. He is knowledgeable and always has a solution.”

Hudock is married to his wife, Kimberly, and they have a nineteen year old daughter, Samantha. In his spare time, Rick enjoys being a grognard, which is slang for wargamer. A war game is an often physical or electronic simulation of a military operation involving two or more forces and using rules, data, and procedures designed to depict an actual or assumed situation.

Michigan-based Trenton Forging is a leading producer of custom impression die forgings for a wide variety of industries, including automotive, mining, military, and agriculture. Trenton Forging has the distinction of being one of the first companies of any kind worldwide to be certified QS9000, and the first closed impression die forging company in the world certified QS9000/ISO9002.
