

For Immediate Release:

Michigan, Trenton-Detroit

Trenton Forging Company Awards Derrick Beaudoin Employee of the Month of September

Derrick Beaudoin, a twenty-three year old from Gibraltar, Michigan, has been a Quality Inspector at Trenton Forging Company for three years. He enjoys learning about all of the positions at the plant, and Derrick says that “the people I work with and golfing with them makes the job even more fun”.

Trenton Forging President, David Moxlow, says, “We take quality control very seriously here at Trenton Forging, and we take pride in our 100% live inspection rate. Employees like Derrick who understand the importance of producing high quality products and services are hard to find. He is committed to going above and beyond his duties in order to guarantee that our customers only receive high quality forgings that meet their specifications.”

Final Inspection Manager, Dave Montiy, says, “Derrick’s ability to multi-task is one of the reasons that Trenton Forging stays highly productive with a low number of employees. His hard work, dedication, and of course his singing inside the Mag Machine are all extremely important to the Trenton team.”

Derrick is the very proud father of a beautiful baby girl who is four weeks old. He enjoys golfing and bowling for fun, as well as spending time with his girlfriend and her six-year old son.

Michigan-based Trenton Forging is a leading producer of custom impression die forgings for a wide variety of industries, including automotive, mining, military, and agriculture. Trenton Forging has the distinction of being one of the first companies of any kind worldwide to be certified QS9000, and the first closed impression die forging company in the world certified QS9000/ISO9002.
