SPEED World Challenge Weekend presented by Trenton Forging Quality Formed Solutions at Mid-Ohio this Weekend

Trenton, MI – May 16, 2006 – For the second consecutive year, Michigan-based Trenton Forging “Quality Formed Solutions” will host the SCCA SPEED World Challenge Series held at Mid-Ohio Sports Car Course, May 19-21, in Lexington, Ohio. The event consists of the SPEED World Challenge Touring Car and SPEED World Challenge GT races.

“Sponsoring this exciting event works out well for us,” says David Moxlow, Trenton Forging president. “Our plant is just two and a half hours away, and we have many customers in the region. Plus, Mid-Ohio is such a beautiful track.”

In addition to sponsoring the World Challenge event, Trenton Forging is also title sponsor of the Autosport Development No. 20 GTO driven by Stu Hayner along with associate sponsor PR Machine Works, Inc. of Mansfield, Ohio.

Over 300 guests have been invited by Trenton Forging and PR Machine Works to watch the races. Clients, employees, family and friends will enjoy grandstand seating, participating in special trackside activities and hanging out in the Autosport Development hospitality tent or Goodyear Tower.

“It’s a great weekend, one my clients really anticipate,” says Moxlow. “Between pace car rides, participating in the opening parade, presenting trophies to the winning drivers, numerous photo opportunities and great food, my clients and their families get to experience professional auto racing like they’ve never experienced it before.”

"We're pleased to again have Trenton Forging partner with SPEED World Challenge for the Mid-Ohio event," says Eric Prill, Sports Car Club of America director of marketing and communications. "Trenton Forging has been a long time supporter of SCCA racing, and we're happy to work with them again this year and also welcome their Pontiac GTOs back to the SPEED GT field."

Michigan-based Trenton Forging is leading producer of custom impression die forgings for a wide variety of industries and a supplier of choice to many Tier 1 and Tier 2 automotive and light truck suppliers. Trenton Forging was the first closed impression die forging company in the world to be certified QS9000/ISO9002 and is now ISO/TS16949:2000 certified. The company also sponsors the Autosport Development #20 GTO, to be driven by Stu Hayner in the SPEED World Challenge GT Series at Mid-Ohio.

The SPEED World Challenge GT Series races in conjunction with the popular American LeMans Series, Indy Racing League, CHAMP and NASCAR Nextel Cup. Races are televised on the SPEED channel.
